

## TOYO's Invitation

March, 2016

Dear Sirs,

On the occasion of Chinaplas 2016 to be held at Shanghai New Airport Expo Center, China, April 25 through 28, we are very pleased to invite you to the show.

At this time, we will be demonstrating the compression molding of light guide plates and our SAG +  $\alpha$  system, with our latest Electric Servomotor-driven Injection Molding Machines. The SAG +  $\alpha$  system minimizes gas generation during plasticizing process.

It will be our greatest pleasure if we could share your precious time at the show.

Yours sincerely,

Kazunori Sogame, President & CEO  
TOYO MACHINERY & METAL CO., LTD.

### Exhibits & Demonstration

Compression molding of  
light guide plates

#### **Si-280-6 GH750D**

Thin-wall molding specialized model  
equipped with high  
acceleration/deceleration injection unit

#### **"SAG + $\alpha$ " system**

#### **Si-100Vcs D150C** (Produced at Changshu factory)

The "SAG +  $\alpha$ " system shows great gas suppressing  
performance with the SAG screw and degassing device,  
which is unique system to TOYO.

\* Picture shows a similar model mounted with JH600D injection unit.

### Time and Venue
